Report

No.: 1301-W-02307

Date of arrival: 25-01-2013

Date of report: 30-01-2013

Patient identification:	Dog	unknown
	breed ?	
Owner / Animal-ID:	Radik, Julia	
Type of sample:	blood	
Date sample was taken:	21-01-2013	

Parameter	Value	Reference value
Name:	---	
Pedigree-ID:	---	
Chip-ID:	900088000242809	
Tattoo-number:	---	

B-locus (Coat color brown) - PCR

Result: genotype B/B

Interpretation: The dog is a non-carrier of the genetic mutation that is responsible for the brown coat color. The dog can not pass this mutation onto its offspring. The currently known mutations that are responsible for the brown coat color were analyzed.

The current result is only valid for the sample submitted to our laboratory. The sender is responsible for the correct information regarding the sample material. The laboratory can not be made liable. Furthermore, any obligation for compensation is limited to the

There is a possibility that other mutations may have caused the disease/phenotype. The analysis was performed according to the latest knowledge and technology.

The laboratory is accredited for the performed tests according to DIN
